

Description	N/A	✓	Notes
1. Project name			
2. Project location, small-scale partial map of community with location of project marked/ placed on site plan sheet if cover sheet not used			
3. List of drawings in specifications if cover sheet not used			
4. Building code data placed on site plan sheet if cover sheet not used:			
a. project regulated by Part 3, 9 or 11			
b. major occupancy			
c. building area/gross area (m^2), including:			
i. existing			
ii. new			
iii. total			
d. number of storeys:			
i. above/below grade			
e. height of building (m)			
f. number of streets/fire access routes			
g. building classification			
h. sprinkler system			
i. standpipe			
j. fire alarm			
k. high building			
l. permitted/actual construction, including:			
i. combustible			
ii. non-combustible			
iii. both			
m. mezzanine(s) area (m^2)			
n. occupant load based on:			
i. m^2 per person			
ii. design of building			
iii. listed by floors, including basement level(s)			
iv. verify total number of occupants for each floor against numbers shown on key plan			
o. hazardous substances			
p. required fire resistance ratings for:			
i. horizontal assemblies			
ii. supporting members			
iii. listed design numbers			
q. spatial separation/construction of exterior walls details for each side of building, including:			
i. area of exposed building face (m^2)			
ii. limiting distance (m)			
iii. length/height or height/length ratio (m)			
iv. permitted maximum/proposed % of openings			
v. fire-resistance rating			
vi. listed design or description:			
(1) combustible			
(2) non-combustible			
(3) combination			
5. Other data <i>as required</i> by authorities having jurisdiction placed on site plan sheet if cover sheet not used, including:			
a. calculations of:			
i. occupancy			
ii. number of washroom fixtures required			
iii. parking			
b. seismic design conditions			
c. barrier-free provisions
