

Description	N/A	✓	Notes
1. Each section identified by reference number/ scale – verify cross-references to location drawings			
2. All building components that intersect with section shown:			
a. cross-hatching/symbols to indicate materials, plus notations, including location/material of air/vapour barriers			
b. wall/roof assembly types identified by reference numbers <i>cross-referenced to drawings where schedules placed</i>			
c. section continuous from footing to roof			
d. typical window or door condition			
i. verify that window/door openings match building sections			
e. fire stops in concealed spaces:			
i. backfill line, including foundation drainage/backfill layers			
ii. special drainage			
3. Column line – dimensioned to wall face(s)			
4. Vertical dimensions			
5. Structural:			
a. reinforcing in footings/anchor bolts when not shown on structural drawings			
b. joists/beams/lintels/rafters/roof trusses			
6. Cross-check against engineering drawings
