

Description	N/A	✓	Notes
1. Before the work commences, have the contractor prepare on-site mock-ups and retain them for reference for:			
a. the work of certain trades			
b. significant repetitive elements			
2. Mock-ups allow tradespeople to see what impact and interface is required between trades before work begins on, for example:			
a. masonry walls			
b. through-wall flashings			
c. window installations			
d. roofing and flashings
